Customer Problem Statement Template:

The Expense Tracker applications is basically used in our lives on how to manage the money efficiently. By using this applications, We can easily comes up with the solution in what are all the ways to optimize our money effectively. But, now all the applications that are available in the market are unable to keep track of it. The applications that we will build is to manage our money and finance in a benefical way. The main functionality is to build with this is to notify with an email alert if they exceeds in their limit range of spending money

Problem statement					
Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	User	Manage my money more efficiently by using this application and it should be more user friendly.	it does not come up with the better solution on the need of users capability.	Sometimes, the application leads to failure in order to calculate their expenses and also looks like a complex one. Leads to spend my saving money without a proper tracking of it.	Disappointed.

PS-2	Person who needs to save money and expense it in a useful manner.	Utilize this application in a proper way which wants to make me comfortable and always keeps to track on the money in every expenditure.	It is not revealing the money in an appropriate way to save the amount.	it does not calculate with the income ratio and not revealing the money to save.	It leads to loss of peace in mind, increases the blood pressure .
